

AIR BLASTER VALVES

The Air Blaster Valve purges the air circuit thus creating air vacuum. The Air Blaster triggering mechanism then gets activated with the piston moving back because of negative pressure, thus creating a sudden blast.

- Most effective solution for Cement Industries.
- Highly reliable for working in Dusty Atmospheres.
- Encapsulated Weatherproof Coil
- 100% bubble tight
- Independent of any mounting position.
- Very fast Response time.
- Light in Weight
- Manual override

FLUIDTECQ Solenoid Valves are available in Aluminium alloy, SS 304 and SS 316. Normally Open and Normally closed Solenoid valves can be supplied in Direct acting and Pilot operated options. These valves are suitable for vacuum as well as handling air, gases, oil, water and chemicals.

Body Material	Aluminium, Brass, SS304,SS316
Orifice	7 mm
Mounting	Sub-base Manifold
Operating Temperature	-10 Deg C to +80 Deg C
Pressure	2 – 10 bar
Seal	NBR
Enclosure	Weatherproof

BEST QUALITY

All Valves are manufactured with utmost accuracy. Most of the parts manufactured in-house hence dependency on sub-vendors for quality and delivery is reduced.

BEST PERFORMANCE

These low cost, compact valve offer best performance for years to go. It's simple yet robust design gives value for money.
